DETAILED ACTION

1. Claims 26-32 and 48-68 have been canceled. Claims 3, 12-15 and 35 have been amended. Claims 1-25 and 33-47 are pending.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-25, drawn to isolated nucleic acids encoding IRTA1, IRTA2, IRTA3, IRTA4, and IRTA5, vectors and host cells thereof, classified in class 536, subclass 23.5 and class 435, subclasses 252.3, 320.1, 325, 348, and 419.
 - II. Claims 33-42, drawn to the purified proteins of IRTA1, IRTA2, IRTA3, IRTA4 and IRTA5, classified in class 530, subclass 350.
 - III. Claims 43-47, drawn to antibodies which bind to the proteins of Group II, classified in class 530, subclass 387.1, 387.3, 388.1 and class 181.1 and 183.1.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I, II and III are structurally and functionally different products which are made by different methods and have different uses. The examination of all groups would require different searches in the U.S. Patent Shoes and the scientific literature and would require the consideration of different patentability issues.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter and because the searches required for the groups are not co-extensive, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1642

5. This application contains claims directed to the following patentably distinct species of the claimed invention: the IRTA1, IRTA2, IRTA3, IRTA4, and IRTA5, DNA encoding said protein species and antibodies which bind to said protein species.

With the election of any Group, applicant is required under 35 U.S.C. 121 to elect a single disclosed species, IRTA1, IRTA2, IRTA3, IRTA4, or IRTA5 for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 7-10, 17-22 and 43-47 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Art Unit: 1642

amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karen Canella whose telephone number is (703) 308-8362. The examiner can normally be reached on Monday through Friday from 8:30 am to 6:00 pm. A message may be left on the examiner's voice mail service.
